#### Program description:

The tax revenue aspects of this program are directed at maintaining the integrity of Ontario's self-assessing taxation systems which generate revenue flows to the Consolidated Revenue Fund. Compliance is encouraged through taxpayer information services, assistance, and deregulation while abuse and tax evasion are discouraged through audits and investigations. The tax statutes administered in the program are the Corporations Tax Act, the Income Tax Act, the Gasoline Tax Act, the Tobacco Tax Act, the Fuel Tax Act, the Succession Duty Act, the Land Transfer Tax Act, the Provincial Land Tax Act, the Retail Sales Tax Act, and the Race Tracks Tax Act.

Under the program income supplements are delivered to senior citizens through the guaranteed income system and property tax grants, sales tax grants and home heating grants are paid to eligible pensioners. In addition, the development of small business is encouraged through grants to investors under the Small Business Development Corporations Act.

The program also delivers information services and other administrative aspects of the Ontario Tax Credit System which generates property tax, sales tax and home heating credits to low income tax filers under the age of 65 in order to relate these taxes and costs to the individual's ability to pay and provides political contribution tax credits to qualified tax filers in order to encourage participation in the political process.

#### Program description:

This program determines the valuation of all real property and prepares assessment rolls for purposes of taxation by local governments. Where assessment information has changed from the previous notification, assessment notices are issued to confirm to taxpayers the revised assessment values and the allocation of school support. The program provides an equitable basis of assessment for the distribution of provincial grants and subsidies to municipalities and school boards and the collection of Provincial Land Tax. In municipal election years, the program conducts a municipal enumeration to facilitate the production of preliminary voters' lists and municipal census data.

This program consists of seven activities that provide for the regulation of financial and commercial affairs in order to maintain and strengthen a sound financial and commercial environment in designated areas for equitable exchanges of property and services. This is achieved through disclosure to the public of the essential elements of business transactions including the issuing of securities, registration and licensing of persons dealing with the public to assure a high degree of competence and honesty in their dealings, and examination and surveillance of the financial standing and practices of firms. In addition, this program provides services for incorporation of companies, administration of the Motor Vehicle Accident Claims Act in respect of the adjustment of claims and payment of damages occasioned by the operation of stolen, unidentified or uninsured motor vehicles, and provision for appeal hearings with respect to matters of licensing under various acts administered by the Ministry.

#### Program description:

To establish and operate an inter-regional transit system which serves the needs of the public within the Toronto Area Transit Operating Authority's region of jurisdiction and provides an efficient alternative to the private automobile, by acquiring land, equipment, buildings and fixtures to maintain service and by providing service growth on existing routes and new services as requested by Government, thereby reducing traffic congestion and reducing the pressure for highway expansion.

GO ALRT is a Provincial Government program utilizing state-of-the-art (advanced) technology to provide improved inter-regional rail commuter services in and around Metropolitan Toronto to meet transportation and regional development needs and at the same time create new employment opportunities in the engineering, construction and transit manufacturing sectors of the Ontario economy.

Statutory Appropriations and Disbursements and Charges are not Standard Accounts. Amounts required for Statutory Appropriations and Disbursements and Charges are shown, where applicable, as separate entries under the Standard Accounts Classification details relating to each Activity. However, statutory expenditures have been included in the amounts shown under the Standard Account Classification headings in Table S3 on Page S84-S85 to indicate the nature of the statutory transaction.

#### Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000. Recoveries in excess of expenditures, where these occur, will be added to general revenue.
